BIOMETRICS
DEPARTMENT OF DEFENSE

DoD Biometric Standards Working Group Meeting **October 22, 2004** **1:00PM – 3:30 PM EST** **2531 Jefferson Davis HWY, Suite 7020**

Agenda

1:00 – 1:10	Welcome Note	Mr. John Woodward
1:10 – 1:20	Introduction and Agenda Review	Dr. Ramy Guirguis
1:20 – 2:20	IT Standards Enforcement - DISRonline	Dr. Bernandini
2:20 – 2:40	Overview of the Recently Approved Biometric ANSI Standards	Dr. Ramy Guirguis Mr. Robert Yen
2:40 – 3:00	Group Charter and membership	Dr. Ramy Guirguis
3:00 – 3:20	Standards and M1 update	Mr. Gregory Zekster
3:20- 3:30	Next meeting agenda and action items	Ms. Erica Ford

DoD IT Standards Registry (DISRonline)

The *DISRonline* consists of a collection of web-based applications supporting the continuing evolution of the Department of Defense (DoD) Information Technology Standards Registry (DISR) and the automation of all its processes. It supports all aspects of the DISR from standards development to daily usage and compliance guidance using a web-based front-end. It provides general information for the DoD IT Standards Committee (ITSC), IT Standards Working Groups (ISWGs), and other DISR Communities of Interest (COIs), as well as access to all versions of the archived JTA documents.

The DISR itself provides DoD systems with the basis for seamless interoperability. In *DISRonline*, the Joint Technical Architecture (JTA) document was parsed and populates an Oracle database that serves as the back-end repository for all of the web-based applications. It defines the DISR services and standards applicable to all DoD information technology (IT) systems. The DISR is mandated for the management, development, and acquisition of new or improved IT systems throughout DoD. Standards and guidelines in the DISR are stable, technically mature, and publicly available.
